DETAILED ACTION

Status of Claims

Claims 1-11 are pending.

Specification

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Response to Restriction

Applicant's election without traverse of Group II, claims 3-4 and 7 in the reply filed on 05/04/05 is acknowledged.

Claims 1-2, 5-6 and 8-11 are withdrawn from further consideration by the Examiner, as being drawn to a non-elected subject invention, 37 CFR 1.142(b).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-4 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation in claim 3, line 26 "from 1 hour to several weeks" render the claim(s) indefinite because there is no indication whatsoever what the upper limit is. Is 3, 8, 15, 26 or 52 weeks within the scope of the claims?

U.S. Patent number 6,790,988 is cited to show the state of the art.
